

Niaz Babar Bahadur

Senior React Native Developer

I am an experienced React Native Developer with 7 years of proven experience of building and delivering performant mobile apps for both iOS and Android. Building a product is a collaborative effort, and I am a strong team player. I have expertise in working closely with customers, cross-functional teams, and stakeholders throughout the full application development lifecycle, from architecture to deployment. I bring hands-on experience with scrum ceremonies including sprint planning, demos, retrospectives, backlog refinement etc.

WORK EXPERIENCE

Mobile App Developer

Nilfisk

07/2022 - Present

Budapest, Hungary

A global leader in cleaning equipment, products and solutions - serving industrial, commercial, and consumer markets.

Achievements/Tasks

- I develop, test, and maintain Nilfisk My Fleet app which is a fleet management app for Nilfisk's manual and autonomous cleaning machines. It provides sites and machines stats via graphs and numbers, displays cleaning maps, schedules tasks, manages users, and sends push notifications.
- I developed the Service Tool app for service technicians of the machines. It connects to machines via Bluetooth and helps in troubleshooting errors by fetching machine data, warnings, and can also be used to update machine's firmware.
- I maintain CI/CD pipelines for these two projects to ensure smooth delivery of app to testers and to stores.

Software Engineer

eZhire

02/2021 - 06/2022

Dubai, UAE (Remote from Karachi, Pak)

eZhire is a Dubai-based on-demand car rental platform offering a fully digital, app-based experience with no deposits and no paperwork.

Achievements/Tasks

- I worked at MeStar Inc, a subsidiary of eZhire, as a React Native Developer to develop an AI-based life coaching app. Key features of the app includes social sign-in, in-app purchases for paid coaching sessions, an AI-based chatbot with audio messaging, an audio/video player scheduling meeting with consultants, push notifications, and more.

React Native Developer

Digitonics Labs

09/2020 - 01/2021

Karachi, Pakistan

Digitonics is an IT solutions and services consulting company providing services to early stage ventures and businesses.

Achievements/Tasks

- During my tenure at Digitonics I developed a simple Patient Wait App which lists the nearest urgent care and emergency departments in the US based on their wait time. I also developed UI for Venkat App, an online bookstore

Jr. React Native Developer

KalSoft Limited

10/2019 - 08/2020

Karachi, Pakistan

KalSoft is a Microsoft Gold Certified Partner and a leading technology solutions and services consulting company.

Achievements/Tasks

- During my tenure at Kalsoft I worked on a social networking app and the MVP of a multilingual food ordering app using React Native. I also had an opportunity to develop new features on a native iOS employee management app for Jazz - Pakistan's largest telecom company.

SKILLS

React Native

ReactJS

Typescript / JavaScript

Redux
